Leaf identification with Year 1

PRIMARY SCHOOL Sustainability matters

With a focus on 'sustainability' we are so glad Newton Farm Primary School chose to work with us this academic year.

Each week we set up in their playground and deliver Forest School activities, developing children's knowledge and understanding of the importance of protecting our natural world. Working closely with teachers, we seek to enrich existing learning, linking to the curriculum and classroom priorities including; Speaking and Listening, Maths, Science, and Literacy.

Ms El-Hasnaoui, Year 2 Teacher tells us,

"No one forgets their wellies on a Thursday. It's fair to say the children are loving the sessions and beyond the numerous learning observations frantically being made by my colleagues and I, we are witnessing moments of pure joy, amazement and wonder. Sessions are immersive and imaginative and undoubtedly sowing seeds for a more sustainable future."

We currently have an opening for a new school. Contact us today to find out more.

"We aspire to excellence in all we do. As we focus on sustainability this year it felt right to engage Forest School experts to help."

We are lucky to have the support of both our PTA and parents who are helping us fund the sessions recognising the value Forest School brings to our educational enrichment, not least, the future of our planet."

CURRICULUM DAYS

Immersive, imaginative and unforgettable

We have opened bookings for our Spring Curriculum Days. Contact us to find out more about our exciting and engaging workshops - ideally taking place in our Woodlands, but can take place on suitable premises:

- History - Stone Age
- Science - Environmental
- PTSD - Wellbeing

Email us today for more information.

SPECIAL EDUCATIONAL NEEDS AND DISABILITY

Inclusive learning rain or shine

We continue to work with Woodlands School offering hands on experiences for a small group of children with profound difficulties.

"Sessions are inspiring and engaging. Our students develop confidence and self-esteem through innovative outdoor play. Utilising our Pupil Premium means we can offer this to children whose parents may otherwise struggle to contribute".

Lisa, Mobility Leader

EARLY YEARS

Nursery groups enjoy the outdoors

We have thoroughly enjoyed playing in the woods with our Nursery groups, particularly working in partnership with Little Darlings this term.

"The children love exploring and playing in the woodland. Our parents really value this provision and enjoy receiving our 'Tales from the Woods' updates."

Sanjay, Little Darlings Manager

Little Darlings have generously sponsored a family learning session on 28 November. To find out more or to join our Nursery Group waiting list, email today.

FAMILIES

Making memories together

We are so pleased to be welcoming back our family workshops this December. Join us for:

- **Parent and Toddler**
